

**Numbeo** is the largest online database on travel costs worldwide. For two years **Numbeo** made four rankings of cities, according to cheap hotels and average prices and costs to be borne tourist daily average budget and a minimal budget (so-called "

## **backpacker**

", traveling with backpack back).

The four rankings are determined based on an index calculated by reference to the city of New York, a city that is 100%. In addition, most cities are offered and the cost of a day **trip** to medium and

## **backpacker**

Specifically, the cost index calculation takes into account the prices backpacking **trip** in the cities concerned, compared with the same prices in New York.

Prices considered are:

Minimum cost of a night at an one or two star hotel

A meal at a fast food MacDonalds or similar

A meal at a cheap restaurant

A bottle of Coca-Cola or Pepsi

A bottle of water

A beer

Four tickets for a trip on public transport

Taking into account all these prices, **Cluj-Napoca** ranks 51 of 166 cities evaluated, where 1 is the cheapest place for **backpacker** city (Cebu, Philippines) and the number 166, the most expensive (Ashdod, Israel) .
